PROFESSIONAL SUMMARY

Business Analyst with hands-on experience in financial analysis, budgeting, forecasting, and reporting using Excel, SQL, Power BI, and IBM SPSS. Skilled in variance analysis, data-driven insights, and translating business performance into clear, actionable recommendations for cross-functional stakeholders. Builder of self-directed analytics projects spanning financial variance modelling, BI dashboarding, and SQL-based process analysis.

SKILLS

Core Skills: Financial Analysis, Business analysis, Financial Accounting, Cost Accounting, Data Visualization and storytelling, Dashboarding and reporting, Research and market analysis, Stakeholder communication, Process improvement.

Technical Skills: MS Excel, SAP, QuickBooks, Python, SQL, Tableau, Power BI, Google Analytics, IBM SPSS, HTML.

EDUCATION

Bachelor of Commerce in Business Analytics

St. Mary's College - Yusufguda, Hyderabad, India • 2023 - 2026 (expected) • CGPA - 7.96

12th Grade

Little Flower Junior College - Uppal, Hyderabad, India • 2021 - 2023 • CGPA - 7.25

CERTIFICATIONS

Data Analytics with Power BI - Excelytics | 2023

Google Data Analytics Professional Certificate - Google Coursera | 2025

PROJECTS

Global E-Commerce Performance Dashboard — BI Reporting

- Designed and published an interactive KPI dashboard in Tableau Public using the Online Retail II dataset (~1M rows), covering revenue, order volume, and geographic sales performance.
- Used Power Query to clean and reshape the large dataset, then built custom KPI cards and geographic visualizations natively in Tableau.

Process Bottleneck Analysis — Claims & Underwriting

- Analyzed the BPI Challenge 2017 event log (a real-world Dutch financial institution loan application dataset) in PostgreSQL to identify cycle-time bottlenecks and misrouting patterns.
- Wrote SQL queries to trace process stalls and repeated handoffs, then proposed process-improvement recommendations to target processing efficiency.

RESEARCH PAPERS

A Study on the extended effects of Customer Brand Satisfaction and Brand Trust on Brand Advocacy:

- Examined the extended influence of customer satisfaction and brand trust on brand advocacy through academic research.
- Used Excel, IBM SPSS, and regression analysis to support data interpretation and conclusions.

POSITIONS OF RESPONSIBILITY

Vice President & President (2024-26): Served as Vice President (Second Year) and President (Final Year) of the college Commerce Club, leading the planning and execution of academic and co-curricular events and coordinating with faculty and student teams.

Student Council member (2023-24): Supported the planning and coordination of events and meetings, serving as a communication link between the council and the student body.
